- ❖ Training and motivation of managers, middle management and all personnel of the company to continuously improve the quality of their work.
- ❖ Careful selection and evaluate on the suppliers and subcontractors. This system covers the appliance aspects of quality both on-site and off-site. This system follows the JNCO Q.C. Program structure as described earlier. The objective of the QC is to ensure for this project the following aspects.
- ❖ Work performed under this contract conforms to all applicable standards and specifications. Perform sufficient inspection and tests of all items of work, including that of JNCO subcontracts to ensure conformance to applicable contract plans, specifications and drawings in respect of materials, workmanship and performance.

- ❖ Maintain inspection records and make them available to the client when required.
- ❖ Provide necessary support for any inspection test that the client may want to perform at the site.
- ❖ Conduct Phase inspection namely the Preparatory, the Initial and the Follow-up inspection in accordance with the relevant clauses of the contract.
- ❖ Review and approve the shop drawing prior to submittal to the client.
- ❖ Conduct on-site and off-site inspection on all materials suppliers and services to be incorporated into the works.

HEALTH AND SAFETY POLICY

Safety plays a very important role in construction work. It is our objective to efficiently achieve our construction targets without compromising on safety aspects of personnel, equipment, plant as well as the community.

A good and effective construction safety program will improve the overall performance of the project as well as help in eliminating/minimizing the accidents.

Safety is an integral part of our daily activity and requires strict adherence to the following principles:

- ❖ Every employee shall familiarize himself with safety rules, as safety of every person, equipment and the community is paramount.
- ❖ Primary responsibility of each employee is to make sincere efforts to reduce the possibility of accident.
- ❖ Safety takes precedence over expediency and short cuts.
- ❖ The basic safety rules and loss preventive measures contained in this program are mandatory and will be actively enforced by supervision and management.
- ❖ Safety is accepted as individual responsibility and each person shall think, plan and perform his work with safety as the utmost consideration.

Individual commitment and voluntary support of these principles by each employee are critically essential to the success of this safety program.

ENVIRONMENTAL POLICY

In pursuit of our goals, we implement the following principals:

- ❖ We conduct our activities within the law and the requirements of the statutory. We are always striving to minimize the detrimental impacts of our projects on the environment at large.
- ❖ We encourage sub-contractors and suppliers to pursue best practices and to apply environmental friendly solutions.
- ❖ Our related team meant for the job consistently sharing knowledge with our employees to make them abreast with up to date information for friendly working solutions in all respects.

JNCO believes in the safe environment i.e. pollution free conditions to lead to better life, healthy conditions and eventually expedient work. We as a team know the dangers, the deterioration of the ozone layer and of the overall greenhouse effect. Our slogan regarding all such issue is:

TO SAVE ONE PERSON

IS TO SAVE HUMANITY

&

TO SAVE ENVIRONMENT

IS TO SAVE THE PLANET EARTH

HUMAN RESOURCE POLICY

ARAMCO REGISTRATION CERTIFICATE

Saudi Aramco 9677 (03 / 2013) MP&SD/483 -100

Acknowledgment of Saudi Aramco's Supplier Code of Conduct

(Applicable to Vendors, Manufacturers, Contractors, and Sub-Contractors)

Saudi Aramco is committed to the highest ethical and legal standards in the conduct of its business. Saudi Aramco requires all registered vendors, manufacturers, contractors and sub-contractors with which Saudi Aramco conducts business to acknowledge and agree to abide by the policies and principles set forth in the attached Saudi Aramco Supplier Code of Conduct

This Saudi Aramco Supplier Code of Conduct shall be acknowledged by all vendors, manufacturers, contractors, and sub-contractors at the time of registration or, if previously and currently registered, at the time of submitting a request for registration renewal, or submitting bids and proposals in response to Saudi Aramco's invitations and solicitations to bid.

Acknowledgement must be signed either by owners, or individuals acting as an attorney on behalf of the owner via an appropriate power of attorney that is consistent with the legal requirements of Saudi Arabia. It should be also authenticated by the relevant Chamber of Commerce.

Original acknowledgment form should be sent by express mail:

Manufacturer and vendor to: Supplier Registration Unit, North Park 1, 1st floor, Room C-A 143, Dhahran,

Contractor to: Contractor Relations & Document Control Unit, North Park 2, 1st floor, Room A-162, Dhahran

Potential or actual violations of this Code of Conduct and other ethical irregularities should be reported directly to the Saudi Aramco General Auditor by email, fax, or telephone as detailed on page 5 of this Form.

ACKNOWLEDGMENT

I, on behalf of **Jufal & Naif Obaid AlShammari T&C Co.** hereby acknowledge and
[the name of the vendor/manufacturer/contractor/sub-contractor]

agree to abide by the policies and principles of Saudi Aramco's Supplier Code of Conduct and to ensure that the employees, officers, directors, agents, representatives of

Jufal & Naif Obaid AlShammari T&C Co. are aware of and shall abide by such policies and
[the name of the vendor/manufacturer/contractor/sub-contractor]

principles in the process of preparing and submitting bids and proposals for Saudi Aramco work, for provision of goods and services to Saudi Aramco, and during the performance and administration of all agreements entered into with Saudi Aramco for such purposes.

ARAMCO REGISTRATION CERTIFICATE

SAUDI ARAMCO SUPPLIER CODE OF CONDUCT

SCOPE

This Supplier Code of Conduct establishes a Policy for all current and potential Saudi Aramco Suppliers. Saudi Aramco Suppliers include vendors, manufacturers, contractors, and sub-contractors who are registered with Saudi Aramco and seeking to provide goods, services, or personnel (including consultants) to Saudi Aramco or which are currently parties to agreements for such purposes with Saudi Aramco or one of its contractors. The term Saudi Aramco as used herein includes Saudi Aramco and its subsidiary companies.

INTENT

Saudi Aramco is committed to conducting its business in an ethical, legal, safe, and environmentally and socially responsible manner. Saudi Aramco requires each of its Suppliers to share and demonstrate this commitment and, therefore, has established this Supplier Code of Conduct. Saudi Aramco requires its Suppliers to consistently meet the following requirements in order to be considered for, to do, or continue to do business with Saudi Aramco.

SUPPLIER CODE OF CONDUCT

Compliance with Laws, Codes, and Regulations

Saudi Aramco Suppliers must comply with all applicable laws, codes, and regulations as set forth in applicable procurement documents and agreements (including but not limited to proposals, invitations to bid, solicitations, and resulting contractual and purchasing agreements).

Environmental, Health, and Safety Practices

It is the responsibility of the Supplier to assure that its facilities are designed and safely operated in compliance with the established government and industry environmental protection policies and that they do not present unnecessary risks to the environment or public. Saudi Aramco Suppliers shall maintain safe, sanitary, and healthy residential camp and living environments for all their employees.

Such compliance shall include, among other things:

ARAMCO REGISTRATION CERTIFICATE

- Obtaining and maintaining any necessary environmental permits.
- Proper handling and disposition of hazardous materials and refuse.
- Monitoring, controlling, and responsibly treating discharges generated from operations.
- Conducting appropriate employee safety training and providing adequate safety equipment.
- Maintaining records of safety training and monitoring safety performance.
- Ensuring Suppliers' employees comply with applicable health and safety rules and regulations and perform their duties and work in a manner which will not endanger themselves or others.
- Providing training required to promote sound public health and hygiene practices.

Ethical Business Practices

Saudi Aramco and its Suppliers shall conduct their businesses in accordance with the highest standards of ethical behavior. Suppliers are expected to conform to these requirements in each of the following areas:

Fair Trade Practices

Suppliers shall not engage in collusive bidding, price discrimination, anti-competitive, antitrust, or other unfair trade practices.

Ethical Sourcing

Suppliers shall source goods or services from third parties that meet, as a minimum, country of origin standards for health and safety, working hours, pay, employment conditions and environmental protection.

Relationships and Communications

Saudi Aramco Business Ethics Policy requires that all transactions are to be conducted fairly, honestly, and with integrity, according to the highest ethical standards. Abuse or violation of this Business Ethics Policy is considered dishonesty.

Suppliers and their personnel shall avoid even the appearance of unethical or compromising practices in relationships, actions, or communications with regard to existing or proposed business relationships with Saudi Aramco.

Saudi Aramco views it as a conflict of interest and improper business practice for current or former Saudi Aramco employees to utilize any confidential or proprietary business, technical, or other information obtained while in the service of Saudi Aramco

Ethical Business Practices

Saudi Aramco and its Suppliers shall conduct their businesses in accordance with the highest standards of ethical behavior. Suppliers are expected to conform to these requirements in each of the following areas:

Fair Trade Practices

Suppliers shall not engage in collusive bidding, price discrimination, anti-competitive, antitrust, or other unfair trade practices.

Ethical Sourcing

Suppliers shall source goods or services from third parties that meet, as a minimum, country of origin standards for health and safety, working hours, pay, employment conditions and environmental protection.

Relationships and Communications

Saudi Aramco Business Ethics Policy requires that all transactions are to be conducted fairly, honestly, and with integrity, according to the highest ethical standards. Abuse or violation of this Business Ethics Policy is considered dishonesty.

Suppliers and their personnel shall avoid even the appearance of unethical or compromising practices in relationships, actions, or communications with regard to existing or proposed business relationships with Saudi Aramco.

Saudi Aramco views it as a conflict of interest and improper business practice for current or former Saudi Aramco employees to utilize any confidential or proprietary business, technical, or other information obtained while in the service of Saudi Aramco

ARAMCO REGISTRATION CERTIFICATE

to influence Saudi Aramco's existing or proposed commercial transactions for the purpose of gaining a personal commercial advantage, or benefitting any third party, or to otherwise damage Saudi Aramco, whether during or after leaving employment by Saudi Aramco.

Suppliers shall not encourage or utilize current or former Saudi Aramco employees in any manner which would cause them to disclose or provide any confidential, proprietary, or other restricted information obtained while employed by Saudi Aramco to influence Saudi Aramco's existing or proposed commercial transactions for the purpose of gaining a commercial advantage.

Suppliers shall not hire, employ, engage as a consultant, procure the services of, or allow acquisition of any ownership interest of the Supplier, except through a permitted passive investment, by any current Saudi Aramco employee. This restriction shall also apply to any former employee who has held a position within Saudi Aramco at the level of "department head" or higher. The restriction pertaining to former employees shall be valid for a period of two (2) years following the time that such individual is no longer an employee of Saudi Aramco.

Suppliers may seek exceptions to these restrictions from Saudi Aramco. Requests for such exceptions should be submitted in writing to the Vice President, Materials Supply. Saudi Aramco will take appropriate measures to detect any such improper business practices and will take appropriate action against current or former employees and Suppliers who violate these restrictions. Suppliers are expected to cooperate with Saudi Aramco investigations and to provide reasonable assistance as requested.

Bribery, Kickbacks and Fraud

No funds, assets, services, privileges, or benefits shall be paid, rendered, loaned, or promised for payment or otherwise dispersed by Suppliers or their representatives as bribes, "kickbacks", or other payments or inducements designed to influence or compromise the judgment or conduct of Saudi Aramco or its representatives.

ARAMCO REGISTRATION CERTIFICATE

Gifts, Gratuities and Hospitality

Suppliers and their personnel shall not offer or provide Saudi Aramco or its personnel with gifts, gratuities, or hospitality unless it involves nominal value and is in line with customary business practices. Nominal gifts are described as gifts of a general nature having a low value, including such items as logo inscribed pens, caps, shirts, and coffee mugs. Customary business practice in terms of hospitality would include the acceptance of reasonable business entertainment and business meals. Gifts, gratuities, and hospitality offered or extended by Suppliers to Saudi Aramco personnel which exceed nominal value or reasonable hospitality are reportable under internal Saudi Aramco policies and regulations. Items which are made available to the general public do not fall under this Policy.

For the avoidance of any doubt, Saudi Aramco pays for its employees' business expenses. Suppliers are not required or requested to incur or reimburse business expenses for Saudi Aramco employees.

Monitoring and Compliance

Suppliers shall be responsible for complying with the standards and requirements of this Supplier Code of Conduct and to monitor their own business activities. Suppliers shall conduct periodic internal reviews, inspections, and audits to ensure their compliance with this Supplier Code of Conduct and its applicable requirements. Additionally, Suppliers are responsible for ensuring that the standards and requirements of this Code are communicated and understood by their personnel working on or in support of Saudi Aramco projects, jobs, contracts, agreements, and orders. Suppliers will be held responsible for the conduct and actions of their employees.

The implementation of this Policy is a shared responsibility between Saudi Aramco and its Suppliers. Suppliers are to promptly disclose to Saudi Aramco, on a confidential basis, all current and potential incidents which give rise to the appearance of conflicts of interest and instances of unethical or fraudulent behavior by any party, including Supplier employees or Saudi Aramco employees, related to any Saudi Aramco procurement and contracts business. Suppliers are to cooperate with Saudi Aramco in any inquiries or investigations pertaining to past, current, or potential instances of unethical or fraudulent behavior or conflicts of interest related to any Saudi Aramco business activity.

Suppliers are to promptly notify Saudi Aramco when they become aware of any actual, or potential violation of this Code of Conduct and to communicate plans to correct and remedy such violation. Additionally, Supplier employees that become aware of violations of this Code of Conduct are to notify Saudi Aramco.

ARAMCO REGISTRATION CERTIFICATE

Potential or actual violations of this Code of Conduct and other ethical irregularities are to be reported directly to the Saudi Aramco General Auditor by email, fax, or telephone as follows:

- Email: generalauditor.hotline@aramco.com
- Fax: 03-873-7775
- Phone: 03-874-3333

Suppliers shall maintain appropriate records to substantiate compliance with the terms and conditions of this Code of Conduct and provide such evidence to Saudi Aramco upon request. Saudi Aramco or its designated representatives may engage in periodic monitoring activities to confirm Suppliers' compliance with this Code of Conduct. These monitoring activities may include on-site inspections of facilities, use of questionnaires, review of publicly available information, or other measures necessary to assess Supplier compliance with this Code of Conduct. Such monitoring activities may be performed in addition to any audit rights which may be set forth in an agreement with Saudi Aramco. A Supplier performance assessment will be used by Saudi Aramco as a factor in the selection of bidders, the administration of contracts and procurements, or to possibly restrict Supplier access to new Saudi Aramco business opportunities.

Based on the assessment of information made available to Saudi Aramco, Saudi Aramco reserves the right (in addition to all other legal and contractual rights) to disqualify any potential Supplier or to terminate any relationship with a current Supplier which Saudi Aramco has found to be in violation of this Supplier Code of Conduct, without liability.

Confidentiality

As part of the process of seeking to provide goods, services, or personnel (including consultants) to Saudi Aramco or in providing such goods, services, or personnel under the terms of an applicable Agreement, Suppliers may gain access to information or material which Saudi Aramco deems to be proprietary or confidential. Suppliers, in all instances, shall comply with the obligations of confidentiality which are set forth in the applicable request for proposal, invitation to bid, other solicitation document, or agreement by and between Saudi Aramco and the Supplier. Saudi Aramco views breaches of confidentiality and unauthorized disclosure or use of proprietary or confidential information very seriously and reserves the right (in addition to all other legal and contractual rights) to disqualify any potential Supplier or to terminate any relationship with a current Supplier Saudi Aramco has found to have violated its obligations of confidentiality.

ARAMCO REGISTRATION CERTIFICATE

All advertising, press releases, or printed matter that reference Saudi Aramco or a Supplier's relationship with Saudi Aramco must be approved by the Saudi Aramco Public Relations Department prior to publication or other use.

Application

This Supplier Code of Conduct is a general statement of Saudi Aramco's expectations and requirements with respect to its Suppliers. This Code of Conduct should not be read in lieu of, but in addition to, any Supplier obligations set forth in a) requests for proposals, invitations to bid, or other solicitation documents, or b) agreements by and between Saudi Aramco and the Supplier. In the event of a conflict between this Code of Conduct and any Saudi Aramco solicitation documents or applicable agreements, the terms of Saudi Aramco's applicable solicitation documents or agreements shall prevail. The requirements of this Code of Conduct are not subject to waiver. Neither Saudi Aramco, its Suppliers, nor their personnel or representatives are authorized to propose or approve conduct inconsistent with this Code of Conduct.

REGISTRATION CONDITIONS

The registration of your company will be conditioned on us upon your company meeting SABIC requirements and due completion of this Registration form along with the required supporting documentation. SABIC SS SM reserves the right to decline the registration request or in case you are registered, request from you time to time an update or further information of your company ; and or to re-evaluate your registration and/or to withdraw your registration in our sole discretion, without giving reasons. SABIC policies & General Procurement Principles, business ethics, contracting & contract administration & confidentiality details are mentioned below. (Please note that the same have been also mentioned in our Registration letter provided with this form)

SABIC POLICIES AND GENERAL PROCUREMENT PRINCIPLES

We procure material, equipment or product ("Product") or Services on for and behalf SABIC and its Affiliates ("Customers") only from registered suppliers to whom we allocate and inform an official registration number ("Supplier") , but in our absolute discretion and in accordance with the policies and general procurement principles of SABIC.

Kindly be aware that, we at SABIC SS SM always:

- strive to provide high quality, on time and cost effective solutions to our Customers.
- conduct our business on a transparent and highly ethical manner.
- places a high value on the protection of confidentiality of our Customers and Suppliers
- expects Suppliers to strictly comply with applicable laws, regulations and standards; in particular those relating to health, safety and the environment.

SABIC BUSINESS ETHICS

With our suppliers, we seek win/win relationships and to promote the application of our code of conduct in doing so. Kindly note:

1. We award business on the basis of best total value. Safety, environment responsibility, quality, performance, delivery, and competitive price.
2. We expect our suppliers to avoid the use of questionable sales tactics, such as deceptive discounts and gifts in exchange for purchases, which are out of place in ethical business relationships. SABIC - SS SM prohibits the involvement of its employees with suppliers who offer gifts that are intended or give the appearance of intending to influence an award of business.
3. We advise strictly to avoid situations that might be adverse to SABIC - SS SM's interest, or result in conflicting loyalties or interests. A supplier may not assign to, subcontract with, employ or in any way engage an SABIC - SS SM employee or any dependent member of the employee's family or close relative, if the employee is in a position to influence SABIC - SS SM's award of business or management of a buying agreement.

CONTRACTING AND CONTRACT ADMINISTRATION

All purchases from Suppliers will always be confirmed through the issuance of an official SABIC Purchase Order ("PO"), and unless otherwise indicated in the PO, the supply of Products or the performance of Services will always be subjected to SABIC Standard Procurement Terms & Conditions (SQ-05-A4) provided with Registration Package. ALTERNATIVELY, depending of the nature of the procurement and if so indicated in the PO, the supply of products or performance of services may be subjected to other Standard Contracting, Terms and Conditions of SABIC ("Standard Contracting Terms") which would be made available to you at the time of RFQ 8/or along with the PO.

SABIC - SS SM expects regular communications in order to ensure efficiency and proper execution of transactions. For this purposes, we provide Suppliers with means of secured on-line business communications; if they so choose. Suppliers electing to use this options will be issued with a unique secret password, enabling them to interact on-line with SABIC and to perform a business activity or complete a transaction through the use of electronic transmissions ("Business Documents"). When printed from the SABIC electronic records, such Business Documents shall for all and any purposes be deemed to constitute an original document executed and maintained in the normal course of business.

CONFIDENTIALITY

Suppliers shall at all times during the execution of any Purchase Agreement and thereafter, treat and keep the details of the PO and all information in connection thereto received from SABIC, confidential and agree not to divulge such to any third parties without SABIC prior written consent. Suppliers may also be required to execute non-disclosure agreement(s) in respect of specific projects. These obligations will survive the completion of the Purchase Agreement.
